

ST ALOYSIUS COVID CARE CENTRE NEWSLETTER

Featuring initiatives by St Aloysius Covid Care Centre

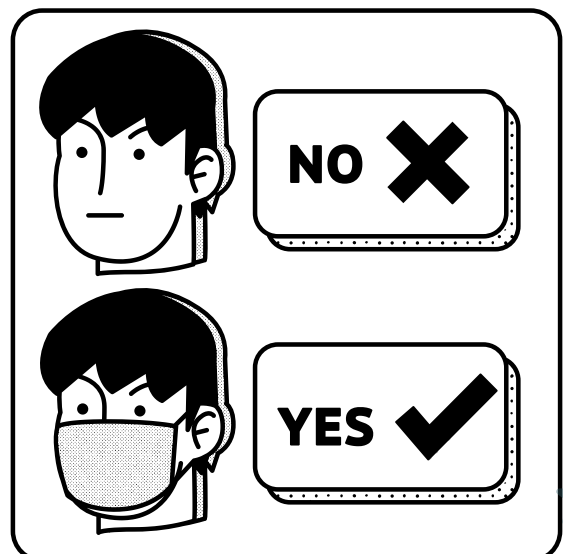

A Collaboration of Mangalore Jesuit Education Society (MJES) & St Aloysius College Alumni Association (SACAA)

May 21, 2021

Vol. 1 Issue - 1

Following the second wave of the pandemic's devastating impact and an exponential increase in the virus's spread, MJES and SACAA have once again risen to serve the people and families infected and adversely affected by the pandemic.

Through this initiative, we will be able to reach out to hundreds of migrant workers and distressed individuals on a regular basis by providing food kits, psychological support, medicine, and health services.

FROM THE DESK OF

Rev. Fr Praveen Martis SJ

PRINCIPAL, St Aloysius College

The second wave of the pandemic invaded the nation, our state, and region before we even realized the extent of its damage.

We, St Aloysius Institutions, and SACAA were quick to respond to the onslaught of the pandemic and felt that we must assist the regional

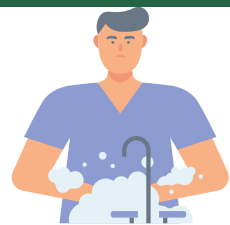

administration to mitigate the ill effect of the pandemic and eventually put an end to the devastating humanitarian crisis.

We all came together on a virtual platform to do the need analysis of the local situation and to prepare an action plan to handle the present crisis. We listed a few important areas of concern, namely, the distress of covid infected and affected families, and responded to them by listening and counseling and providing them with medical and food kits.

Later on when the request came from the Commissionarate of Police to create a Covid Care Centre for the frontline warriors like the Covid infected police personnel we provided them the space in the campus by vacating the inmates of the ladies staff hostel.

We launched St Aloysius Covid Care Centre to cater to the needs of the Covid infected and affected families. We thank all our stakeholders for their generous support in this noble venture.

FROM THE DESK OF

Mr Stephen J Pinto

PRESIDENT, St Aloysius College Alumni Association (SACAA)

Dear Friends,
We are facing a trying time in history. Our nation, our world, is experiencing something that is difficult to understand and unpredictable.

Today, we are all searching for ways to adapt to a 'new normal. While this new normal may appear challenging, and at times scary, the situation will not change and we must find a way forward to survive this storm together.

Being challenging and uncertain right now, it is imperative that we make adjustments to our lives to make a difference in the lives of others. The St Aloysius experience is about much more than the magnificent campus and excellent education that we value.

Although we must cherish and nurture the relationships we formed at St Aloysius, we must also consider what will happen if we all made an effort to let people know they are important to us in these difficult times. That is the mission of St Aloysius Covid Care Centre. Don't let social distancing turn into a complete social disconnect.

As SACAA family let us keep in touch with those who are in need, support them, and lift them up.

How do we show our support for one another while still preparing to meet the needs of our district/nation? Moments like these are when we let our full light shine. In times of great difficulty, we must carry out our core beliefs and help one another.

I have no doubt my dear SACAA members will rise to meet this challenge.

I eagerly anticipate your support in ensuring that our Alma Mater is best positioned to LEAD FROM THE FRONT.....

FROM THE DESK OF

Fr Cyril DMello SJ

**Coordinator, Disaster Management
Committee
St Aloysius Covid Care Centre**

The second wave of the pandemic Covid 19 has struck India very hard, and no one has been spared. Many families have lost their bread winners, many have lost their beloved ones. The situation in Karnataka is pretty bad, thousands have died, people have struggled to save themselves and their beloved ones running pillar to post searching for hospital beds, oxygen cylinders and ICU facilities.

This memory is going to last long and has a tremendous impact on our mental health and the way we live. The future is not going to be the same. All this time money spoke louder than the values and behaviour of people, pride dominated the world, going forward people have realized money will not give life comfort rather relationship beyond all divisive forces is the only means that keeps us united and fight the common enemy called death.

Karnataka Jesuit Province sees this as a big opportunity to serve the needy and establish this brotherly bond beyond all boundaries, acted swiftly in starting Covid Relief Work all over Karnataka.

I feel proud to say even in Mangalore at SAC the Covid Relief Work is progressing pretty fast and in right direction, many daring and brave covid warriors are working tirelessly while many others are generous to contribute their might. Thanks to all these brave and generous people of good will many sick, poor, front line worriers like policeforce, migrant workers and orphaned have benefited.

St Aloysius has always remained a model institution in this regard and played the role of a catalyst! Let us join hands with SAC Covid Care Centre and spread happiness and joy everywhere in Mangalore.

MJES & SACAA Launch 'St Aloysius Covid Care Centre'

The Aloysius Covid Care Centre will operate from Gelge Hall (Main Auditorium) situated adjacent to the College Parking lot from 9 a.m. to 5 p.m.

The aim is to reach out to the poor families of migrants and daily wage earners by providing them with Provision Kits and Covid-19 essentials weekly
